

# A Proposal for Safe & Trusted Child Mobility

Building India's Trusted Child Mobility Solution

Safe, trusted, and on-demand mobility for  
children when parents can't be there.

**Rapido Kids transforms mobility into peace of mind for parents while creating a new recurring revenue category for Rapido.**

### **Problem**

**Parents struggle with safe transport beyond school hours**

### **Opportunity**

**Growing need for child mobility beyond school buses**

### **Solution**

- ✓ **Verified Captain**
- ✓ **Live Tracking**
- ✓ **Scheduled Rides**

### **Strategic Value**

**Premium Category | Higher Retention | Family Ecosystem**

## Problem Statement

**Parents Need Reliable Transportation Even When School Buses Stop**

**The Challenge:**

School buses solve only a part of a child's daily commute. Working parents often face difficulties arranging safe and dependable transportation for after-school activities, tuition classes, sports academies, and unexpected pickups.

**As a result, parents rely on fragmented alternatives that offer limited visibility, trust, and convenience.**

## Common Scenarios

School Ends (2 PM)  
↓  
Football Practice (4 PM)  
↓  
Tuition Class (6 PM)  
↓  
Home

? **Who manages these transitions when parents are unavailable?**

## Core User Need

**"I want my child to travel safely and reliably, even when I cannot accompany them."**

## Current Alternatives Fall Short

| Existing Option          | Key Limitation                     |
|--------------------------|------------------------------------|
| School Bus               | Fixed routes and timings           |
| Auto/Cab Drivers         | No dedicated child safety measures |
| Relatives/Neighbors      | Not always available               |
| Private Vans             | Fragmented and unorganized         |
| Traditional Ride-Hailing | Built for adults, not children     |

## Key Insight

**Parents are not looking for transportation. They are looking for peace of mind.**

# Target User

## Primary User

**Persona:** Priya & Rahul

**Age:** 30–45 years

**Household:** Dual-income family

**Children:** 10–16 years old

**Location:** Metro cities (Bangalore, Delhi NCR, Hyderabad, Pune)

### Pain Points

- Busy work schedules
- Difficulty coordinating multiple activities
- Safety concerns around children's commute
- Dependence on relatives or local drivers
- Need for visibility and reliability

## Secondary User

 **Schools & Coaching Institutes**

Need:

- Reliable transportation support
- Late pickup solutions
- Improved parent experience

 **Children (09–16 years)**

Need:

- Comfortable and familiar rides
- Predictable routines
- Safe and hassle-free travel

# Ideal Use Cases

| Scenario         | Frequency      | Pain Level |
|------------------|----------------|------------|
| School → Home    | Daily          | High       |
| Home → Tuition   | Daily          | High       |
| Tuition → Home   | Daily          | High       |
| Sports Academy   | 3–5 times/week | High       |
| Emergency Pickup | Occasional     | Very High  |

## Initial Target Segment

**Urban, upper-middle-income families with children involved in multiple activities.**

### Why this segment?

- ✓ High pain point
- ✓ High willingness to pay
- ✓ Frequent usage
- ✓ Strong retention potential
- ✓ Lower customer acquisition complexity

### Key Insight

**Rapido Kids is not for every family. It is designed for parents whose schedules are more complex than what school buses can support.**

# Why Now? | Market Opportunity

## Changing Family Dynamics Are Creating a New Mobility Need

### Rise of Dual-Income Households

Both parents are increasingly working, leaving less flexibility for daily school pickups, tuition drops, and extracurricular activities.

### Growing Participation in After-School Activities

Children today are involved in:

- Tuition classes
- Sports academies
- Dance & music lessons
- Coding classes
- Competitive exam coaching

Their daily mobility extends far beyond school hours.

### Existing Solutions Are Fragmented

Current options include:

- ✗ School buses (fixed schedules)
  - ✗ Auto drivers (limited visibility)
  - ✗ Neighbors and relatives (unreliable)
  - ✗ Traditional ride-hailing apps (not designed for minors)
- No organized player currently owns this space.

### Parents Expect Digital Visibility

Modern parents expect:

- ✓ Real-time tracking
- ✓ Notifications and alerts
- ✓ Verified service providers
- ✓ Convenience and flexibility

Trust and transparency are becoming non-negotiable.

### Why Rapido?

Rapido already has:

- › Large captain network
  - › Real-time tracking infrastructure
  - › Scheduling capabilities
  - › Strong presence in urban India
- Which makes it uniquely positioned to build a family-focused mobility solution.

## Market Entry Strategy

### Start Small, Expand Gradually

#### Target Cities

- Bangalore
- Delhi NCR
- Hyderabad
- Pune

#### Target Users

- Working parents with children aged 10–16 years

#### Target Use Cases

- School → Home
- Home → Tuition
- Sports Academies
- Emergency pickups

### Key Insight

**Children's mobility needs are expanding beyond school buses, creating an opportunity for Rapido to build a trusted family mobility ecosystem rather than just an on-demand ride service.**

# Why Rapido Kids?

**Not a Replacement for School Buses. Not Just Another Ride.**

Rapido Kids complements existing transportation systems by solving mobility needs beyond fixed school routes and schedules.

## Where Existing Solutions Fall Short

| Need                               | School Bus | Normal Ride-Hailing | Rapido Kids |
|------------------------------------|------------|---------------------|-------------|
| Fixed school commute               | ✓          | ✓                   | ✓           |
| After-school activities            | ✗          | ✓                   | ✓           |
| Emergency pickups                  | ✗          | ✓                   | ✓           |
| Verified child-friendly captains   | ✗          | ✗                   | ✓           |
| Parent alerts & tracking           | Limited    | Basic               | ✓           |
| Scheduled recurring rides          | Limited    | ✗                   | ✓           |
| Trusted family access              | ✗          | ✗                   | ✓           |
| Designed specifically for children | ✗          | ✗                   | ✓           |

# CHILD'S DAY

## Why Parents Won't Use Normal Rapido

Traditional ride-hailing platforms are built for adults.  
Parents need:

### Safety

Verified and trained captains.

### Visibility

Real-time updates and notifications.

### Reliability

Scheduled and recurring rides.

### Trust

Consistent and familiar captains.

### Peace of Mind

A service designed specifically around children.

## Strategic Positioning

**School Bus → Covers School Hours**

**Rapido Kids → Covers Everything Beyond School Hours**

## Key Insight

**Parents are not buying transportation. They're buying trust, visibility, and peace of mind.**

**"Rapido Kids doesn't compete with school buses—it completes the mobility journey."**

# Product Vision

To provide parents with a trusted, safe, and convenient mobility solution that ensures children can travel independently while giving families complete visibility and peace of mind.

## Experience Principles

### Safety First

Every interaction prioritizes child safety.

### Trust by Design

Parents remain informed throughout the journey.

### Convenience

Simple booking and recurring schedules.

### Reliability

Consistent and predictable experiences.

# User Journey

## Current Experience

School Ends  
↓  
Parent unavailable  
↓  
Calls relative / auto driver  
↓  
No visibility  
↓  
Anxiety & uncertainty

## With Rapido Kids

School Ends  
↓  
Parent books ride  
↓  
Certified Captain Assigned  
↓  
Secure Pickup Verification  
↓  
Live Tracking & Notifications  
↓  
Safe Drop-off Confirmation  
↓  
Peace of Mind

## Key Insight

**Rapido Kids isn't just transporting children from Point A to Point B—it is reducing parental anxiety throughout the journey.**

# MVP Features | Building the Foundation of Trust

## Goal

Enable parents to book safe and reliable rides for their children while maintaining complete visibility throughout the journey.

## 1. Child Profile Management

Parents can create profiles with:

- Name & age
- Photo
- Emergency contacts
- Frequently visited locations

### Why?

Makes booking frictionless and personalizes the experience.

## 2. Certified Guardian Captains

Only eligible captains can accept Kids rides.

Requirements:

- ✓ Background verification
- ✓ High ratings
- ✓ Child safety training
- ✓ Vehicle quality standards

### Why?

Trust is the product.

## 3. Secure Pickup Verification

Before ride starts:

- Parent receives OTP
- Child/Captain confirms identity

### Why?

Ensures the right child boards the right vehicle.

## 5. Scheduled Rides

Parents can pre-book rides for:

- Tuition classes
- Sports academies
- School pickups

Why?

Most use cases are recurring.

## 4. Live Tracking & Smart Notifications

Parents receive:

- Ride started
- Live location
- ETA updates
- Ride completed

### Why?

Reduces anxiety and increases transparency.

## Key Insight

**The long-term opportunity is bigger than rides—it is owning family mobility.**

# Product Roadmap | Beyond MVP

**Vision:** Evolve Rapido Kids from a ride-booking feature into a trusted family mobility ecosystem.

## Phase 1: Build Trust

**Goal:** Enable safe and transparent child mobility

- ✓ Child Profiles
- ✓ Certified Kids Captains
- ✓ Pickup Verification
- ✓ Live Tracking & Alerts
- ✓ Scheduled Rides

## Phase 2: Build Convenience

**Goal:** Increase retention and repeat usage

 **Trusted Circle**

Parents can add:

- Mother
- Father
- Grandparents
- Guardians

Everyone receives ride updates.

 **Favorite Captains**

Allow parents to prioritize familiar captains.

Benefits:

- Increased trust
- Better child comfort
- Higher captain retention

 **Recurring Rides**

Automate daily schedules:

- School → Home
- Home → Tuition
- Sports Academy → Home

Benefits:

- Higher ride frequency
- Stronger retention

 **Safe Zones**

Pre-approved destinations:

- Home
- School
- Tuition centers
- Sports academies

Destination changes require parental approval.

## Phase 3: Build Intelligence

**Goal:** Make mobility proactive, not reactive

 **AI Safety Monitoring**  
**Detect:**

- Route deviations
- Unusual stoppages
- Excessive speed
- Delayed rides

Trigger real-time alerts.

 **Ride Recording**

Optional audio recording for added safety and accountability.

 **Parent Dashboard**

Insights:

- Ride history
- Weekly activity
- Frequently visited places

## Phase 4: Ecosystem Expansion

**Goal:** Unlock B2B opportunities

 **School Partnerships**  
**Transportation support for:**

- Late pickups
- After-school activities
- Special events

 **Coaching Institutes**  
**Partner with:**

- Tuition centers
- Sports academies
- Music and dance schools

 **Rapido Kids Plus**  
Premium subscription offering:

- Priority matching
- Favorite captains
- Advanced safety features
- Dedicated support

## Strategic Outcome

From "Book a ride for my child." To "Manage my child's mobility ecosystem."  
The long-term opportunity is bigger than rides -- it is owning family mobility.

# Business Impact & Revenue Opportunities

**Rapido Kids creates a premium, recurring, and high-trust mobility category with opportunities beyond one-time rides.**

## 1. Increase Ride Frequency

Daily commute patterns are highly repetitive:

School → Home

Home → Tuition

Tuition → Sports Academy

- ✓ Higher repeat rides
- ✓ Better customer retention
- ✓ Predictable demand

## 2. Premium Pricing

Parents prioritize safety over discounts.

- ✓ Certified captains
- ✓ Additional safety measures
- ✓ Scheduled reliability

💰 Higher average revenue per ride

## 3. Subscription Revenue

Rapido Kids Plus Monthly Membership:

- ★ Favorite Captains
- ★ Trusted Circle
- ★ Priority Matching
- ★ Dedicated Support

💰 Recurring revenue stream

## 4. Better Captain Utilization

Scheduled rides provide:

- Predictable demand
- Higher captain earnings
- Reduced idle time

- ✓ Improved supply efficiency
- ✓ Better captain retention

## 5. B2B Expansion

Potential partnerships:

- 🏫 Schools
- 📖 Coaching Institutes
- ⚽ Sports Academies
- 🎨 Activity Centers

- 💰 New revenue channels
- 💰 Institutional partnerships

## Strategic Value for Rapido

Premium category → Higher margins  
Recurring rides → Better retention  
Subscription model → Predictable revenue  
School partnerships → New B2B opportunities  
Family ecosystem → Stronger loyalty  
Trust moat → Harder to replicate

### Key Insight

**Rapido Kids isn't just a feature—it creates recurring demand, premium pricing opportunities, and opens entirely new customer segments.**

# Success Metrics & North Star Metric

Every metric ultimately rolls up to one outcome: Peace of Mind for Parents.

## North Star Metric

Safe Completed Rides

Balances: Growth | Trust | Reliability

### Acquisition Metrics

#### Child Profiles Created

Indicates parent interest and adoption.

#### Success Question:

Are parents willing to onboard their children onto the platform?

### First Ride Conversion Rate

Percentage of parents who complete their first Rapido Kids ride after creating a child profile.

#### Success Question:

Are we converting curiosity into usage?

### Retention Metrics

#### Repeat Ride Rate

Percentage of users taking another ride within 30 days.

#### Subscription Conversion Rate

Percentage of families upgrading to Rapido Kids Plus.

### Safety Metrics (Most Important)

 **Incident Rate: Near zero goal**

 **Route Deviation Rate**

 **Complaint Rate**

#### Parent Satisfaction Score (NPS)

"How likely are you to recommend Rapido Kids?"

### Business Metrics

#### Incremental Revenue

Revenue generated through Rapido Kids.

#### Average Revenue Per Family

Monetization potential.

#### Captain Utilization

Scheduled rides increase supply efficiency.

### Engagement Metrics

Number of families using Rapido Kids every week.

#### Average Rides per Child

Measures frequency and habitual usage.

Target Use Cases:

- School → Home
- Tuition
- Sports Academies

#### Scheduled Ride Adoption Rate

Percentage of rides booked in advance.

**Why?**

Recurring rides create predictability and retention.

### Key Insight

Growth without trust is meaningless. Success for Rapido Kids is measured not only by rides completed, but by how confidently parents rely on the service.

# Risks & Mitigation

## Building Trust Means Managing Risks Proactively

### Safety Incidents

Even a single major safety incident can severely damage user trust and brand reputation.

#### Mitigation

- ✓ Dedicated Kids Captains
- ✓ Enhanced background verification
- ✓ Ride tracking & alerts
- ✓ Pickup verification
- ✓ Emergency SOS support
- ✓ Safety helpline & escalation team

### Supply Constraints

Not all captains may qualify or opt in for Kids rides.

#### Mitigation

- ✓ Higher earnings incentives
- ✓ Certification programs
- ✓ Kids Captain badge
- ✓ Scheduled rides for predictable income

### Low Adoption

Parents may prefer school buses or existing alternatives.

#### Mitigation

Positioning

Not a school bus replacement.

Focus on:

- Tuition rides
- Sports academies
- Emergency pickups
- After-school activities

Target high-pain use cases first.

### Regulatory & Liability Concerns

Transporting minors involves additional responsibility.

#### Mitigation

- ✓ Explicit parental consent
- ✓ Insurance coverage
- ✓ Safety policies
- ✓ Restricted age group during pilot

### Operational Complexity

Managing recurring schedules and trusted captains adds complexity.

#### Mitigation

Start simple.

Phase-wise rollout:

Phase 1 → One-time rides

Phase 2 → Scheduled rides

Phase 3 → Trusted captains and subscriptions

### Unit Economics

Additional safety checks and training increase costs.

#### Mitigation

- Premium pricing
- Subscription model
- Institutional partnerships

# Risk Prioritization Matrix

| Risk                   | Impact    | Probability | Priority |
|------------------------|-----------|-------------|----------|
| Safety Incident        | Very High | Medium      | P0       |
| Supply Constraints     | High      | Medium      | P0       |
| Low Adoption           | Medium    | Medium      | P1       |
| Regulatory Issues      | High      | Low         | P1       |
| Operational Complexity | Medium    | High        | P2       |
| Unit Economics         | Medium    | Medium      | P2       |

**“Trust is difficult to build and easy to lose. Therefore, safety and reliability must take precedence over rapid expansion.”**

## Key Insight

**The biggest challenge isn't transportation. It's maintaining trust at scale.**

# Pilot Launch Strategy

**Start Small. Learn Fast. Scale Responsibly.**

 Pilot Objective: Validate whether parents are willing to trust and repeatedly use Rapido Kids for after-school mobility.

## Phase 1: Geographic Rollout

Target Cities: Bangalore, Delhi NCR, Hyderabad

- ✓ High concentration of working parents
- ✓ Higher disposable income
- ✓ Strong extracurricular activities
- ✓ Existing Rapido supply network

## Phase 2: Target Audience

Primary: Urban, dual-income families  
Children aged: 09-16 years

Why?

- More independent
- Easier adoption
- Lower operational complexity

## Phase 3: Initial Use Cases

High-frequency, high-pain scenarios:

-  School → Home
-  Home → Tuition
-  Sports Academy → Home
-  Emergency pickups

## MVP Features Included

- ✓ Child Profiles
- ✓ Certified Kids Captains
- ✓ Pickup Verification
- ✓ Live Tracking
- ✓ Scheduled Rides

## Success Criteria

First Ride Conversion: >40%  
Repeat Ride Rate: >50%  
Weekly Active Families: Growing WoW  
Parent NPS: >70  
Incident Rate: Near Zero  
Scheduled Ride Adoption: >30%

## Key Insight

**Trust cannot be scaled overnight. Product-market fit must be earned through focused pilots and continuous iteration.**

## Scale-Up Decision Framework

**"Success isn't launching nationwide. Success is creating a service parents trust enough to use repeatedly."**

# Long-Term Vision & Strategic Impact

## From Mobility Platform to Family Mobility Ecosystem

### Today

Rapido solves:

- Bike rides
- Autos
- Cabs
- Parcel delivery

**Focus:** On-demand mobility

### Tomorrow

Rapido can become the platform families rely on for safe and dependable transportation.

Opportunities

- 👨👩👧👦 Child mobility
- 👴 Elderly assistance rides
- 🛡️ Women-focused safety offerings
- 🏫 School and institution partnerships
- 📅 Subscription-based family plans

### Key Insight

**People don't remain children forever, but families remain customers for decades. By entering family mobility early, Rapido can increase customer lifetime value and create deeper relationships beyond individual rides.**

### Strategic Impact for Rapido

🚀 **New Premium Category**  
Unlock higher-margin, high-frequency use cases.

🔄 **Stronger Retention**  
Recurring rides create daily engagement.

💰 **Diversified Revenue Streams**  
Premium pricing, subscriptions, partnerships.

🏆 **Trust as Competitive Advantage**  
Hard for competitors to replicate.

🌐 **Ecosystem Expansion**  
From individual riders to families and communities.

**"Rapido Kids isn't about helping children travel. It's about giving parents peace of mind while unlocking a new growth engine for Rapido."**

# Thank You

FOR YOUR TIME
